Estimated Value of Wish List:

Adopt A Family adopters and Grace Smith House families are matched on a basis of need, rather than family size. A small family, having just left their situation, may be in greater need than a large sized family. We ask adopters to consider the value of the contribution they are willing to make, and we will match them with a family whose wish list is estimated at that value. This ensures adopters are fairly matched with a family of the appropriate need.

\$100 \$200 - \$300 \$400 - \$500

Please remember that many of our families are in need of protection as well as shelter. We ask adopters keep all information provided regarding families confidential. Please do not share the names, ages, or any additional identifying information with anyone not directly involved in the Adopt A Family program. Please do not share your family's list digitally, post it online, or any other means by which the information could be circulated with the public. This is for the protection of our shelter residents.

Please sign below to indicate your intention to uphold this agreement of confidentiality.
